Region sets strategies to boost performance

Regional authorities in Moeya have put in place various strategies aimed at enabling primary schools in the region to record better performance.

The decision has been reached after the region recorded poor performance in 2013 Standard seven examinations. The region was placed 14 at the national level.

According to the regional administrative secretary, Ms Miriam Mtunguja, the strategies are set along with the implementation of the newly adapted 'Results Now (BRN)' model. Ms Mtunguja said parents and teachers should ensure that all children are attending classes and getting all essential educational needs.

She said the regional authorities will ensure that there are enough teachers, teaching aides and other essential materials for bringing quality education. (Hawa
